COLOURS | Specials: 0000 0000 0000 0000 0000 0000 0000 0000 0000 Process:

A unique variation of the Associate-Owner Concept allows you to run your store with another Associate-Owner. You can satisfy your entrepreneurial spirit while sharing the responsibility for running a business.

Share the responsibility for running a business

If you have never run a business before, you can embark on your first business venture with another Associate-Owner. You will learn and grow with another Associate-Owner who shares your pride of ownership and dedication to the practice of pharmacy. Together, you will build a successful business, secure in the knowledge of your mutual commitment and responsibility.

Balance the drive to succeed with the rest of life

At the same time you feel drawn to the challenge and the opportunity of being an Associate-Owner, you may be looking for a way to pursue multiple goals at once to accomplish even more. Collaborating with another Associate-Owner allows you to balance your enduring dedication to the practice of pharmacy with your personal needs. By distributing the workload, you can pursue your professional and personal goals in harmony.

Focus on your professional talents

Associate-Owners devote part of their time to running the business and part of their time to leading the Pharmacy. With two Associate-Owners, you apply the strengths of two people to every challenge. You draw on each other's talents while you learn from one another and broaden your own skills. Even as you stretch and grow, you are secure in the knowledge that the business and the Pharmacy are receiving the attention they need. Your Multi-Associate-Owner experience can give you the perfect foundation to someday take on a store of your own.

Define a schedule that works for you

With a passion for business and a commitment to patient care, you don't have a "nine-to-five" attitude, yet at times in life some extra flexibility in your schedule can make things easier. Between both Associate-Owners, you can create a schedule that meets individual, Pharmacy and overall business needs.

For more information on the Associate-Owner concept, visit www.shoppersdrugmart.ca/associate or contact your Pharmacy Recruitment Specialist in your region at www.shoppersdrugmart.ca/recruitment

Two options for a Multi-Associate-Owner Concept

One store, two full-time Associate-Owners

Each Associate-Owner works full time hours. Together, you work the hours of an Associate and full-time pharmacist, yet individually, you work fewer hours than you would if you ran a store on your own.

As Associate-Owners you have the flexibility to divide the hours and adjust your schedules to meet your individual needs, while fully supporting one another and the needs of the business in both the dispensary and the front store.

One store, two part-time Associate-Owners

Each Associate-Owner works part time hours. Together, you work the hours of an Associate, yet individually, you work fewer hours than if you ran a store on your own.

As Associate-Owners you have the flexibility to divide the hours and adjust your schedules to meet your individual needs, while fully supporting one another and the needs of the business in both the dispensary and the front store.

Your Choice

If you decide to go into business with another Associate-Owner, choosing that person is completely up to you. While Shoppers Drug Mart may be able to connect you to other people who are also interested in the idea of a joint venture, finding and choosing the right individual is your responsibility.

Going into business with another Associate-Owner may be the ideal choice for you at this point in time. You can launch yourself into a successful business venture with someone who shares your spirit, your commitment and your drive for success. You can learn the business, build your skills, and deepen your experience as a leader. You can balance career aspirations with personal needs. This can be your first stop in a rewarding and successful career as an Associate-Owner. Once you're in business with another Associate-Owner, you always have the option of taking on a store of your own in the future.
